Physician Director’s Report:
Dr. Kilkenny presented the Physician Director’s Report. The Board was invited to attend the Legislative Roundtable at 11:45am Thursday, January 26th. Proposed New Legislation/Law: The ‘Pop Tax’. It is anticipated a 1 cent per ounce tax on sugary soft drinks in West Virginia will be proposed during the upcoming Legislative Session. This tax will be an addition to the existing tax that is applied only to the West Virginia University School of Medicine. Dr. Kilkenny asked for the Board’s opinion and guidance on Cabell-Huntington Health Department supporting the proposed Pop Tax when it is introduced. He informed the Board that taxing sugary drinks would result in the decreased consumption of sugary drinks, and decrease unnecessary calories, and hopefully decline in obesity rates and other associated health risks. Mr. Crawford made a motion to support taxing sugary drinks for its potential public health benefit. Dr. Touma seconded the motion which was approved. There was no further discussion. The Cabell-Huntington Health Department will support a tax on sugary drinks during the upcoming legislative session. The Board inquired if there would be earmarking of funds generated by the tax for health departments. Dr. Kilkenny was not able to confirm this at the current time. The Board was also informed that Kelli Caseman will be presenting the Pop Tax and the A Few Cents Makes Sense campaign at 8am on January 31st during the Regional Health Connect meeting. 2016 overdose data will also be presented by the Mayor’s Office of Drug Control Policy during the January Regional Health Connect meeting.
