Business and Economic Community Transition
April 24, 2020

The COVID-19 situation has tested our community resilience, pandemic response and community resources in a way that has never been seen. As we started our education on social distancing, moving into business closing with only essential businesses operational and our fellow community members finding themselves unemployed, it has created a dynamic with enormous impact in the fabric of our daily lives. As we transition into the reopening of our business community, the Cabell-Huntington Health Department stands as a resource to our business partners, healthcare partners, county and municipal governments, first responders and all our community members.

This document can serve as an outline for an appropriate and reasonable process whereby our community can reopen its businesses in accordance with federal and state guidelines and ensure as much mitigation of the transfer of COVID-19 as possible. This document serves as a community framework to plan and prepare our community businesses and partners to reopen to address individual needs as we move forward. It is not meant to be all-inclusive, but to be flexible and fluid, two terms we've become very familiar with during this pandemic emergency.

Guidelines

There are three very important topics to consider when reopening a community

1. Adequate testing for the COVID-19 virus.
2. Robust community epidemiologic contact tracing capacity.
3. Availability of personal and public protective policies, equipment and supplies.

Local guidelines must align with state and national initiatives such as the White House's Opening Up America Again guidelines and the executive orders of the WV Governor. All efforts must comply with all applicable laws and they must protect the safety of workers and the public.

To obtain input and feedback from a broad set of stakeholders the Cabell-Huntington Health Department will:

- Coordinate a meeting with a Steering Committee to develop, provide feedback and build a structural framework for the transition. Representatives have been identified from:
 - The Cabell-Huntington Health Department
 - The City of Huntington
 - Healthcare
 - Regional Chamber of Commerce

- Develop a broader cross jurisdictional team to facilitate and develop a Cabell County and City of Huntington Plan to open the community with the above representatives along with:
 - The Cabell County Commission
 - The Cities of Barboursville and Milton
 - Healthcare
 - Mountain Health
 - Marshall Health
 - Valley Health
 - HIMG
 - The Cabell County Medical Society
 - Marshall University
 - Cabell County Schools
 - Business Association(s)
 - Industry and Manufacturing
 - Faith Community
 - Emergency Management
 - Law Enforcement
 - Professional Businesses (Attorney, Accountant, Financial etc.)
 - Greater Huntington Parks and Recreational District
 - Long Term Care/Nursing Home/Assisted Living
 - United Way of River Cities
 - Cabell Huntington Coalition for the Homeless
 - Judicial Representative
 - Other

Development of Concepts to reopen a business or sector of business

- COVID-19 Health Education
 - Hand washing
 - Wearing a face covering when appropriate in public
 - Availability and use of supplies such as hand sanitizer or personal protective equipment as in obtaining/wearing a mask or face covering
 - Social distancing at all opportunities – 6’
 - Avoid touching eyes, nose and mouth
 - Recognize symptoms and avoid those with symptoms
 - Self-isolate if showing symptoms of COVID-19
 - Cleaning and disinfecting surfaces in your home, car or things that you and others touch
- Non-Essential Businesses
 - Have the ability to source, obtain and sustain delivery of protective supplies and develop policies and procedures to address:
 - Gloves for staff members
 - Disinfecting and/or hygienic supplies such as disinfecting spray/paper towels or hand wipes, adequate soap in restrooms
 - Hand Sanitizer placed through the business at appropriate levels
 - Maintain social distancing of 6’
 - Follow the guidelines in effect, which currently include:
 - Implement a plan to limit staff, contractors, and vendors to essential personnel
 - Supplying adequate PPE to include disinfecting and hygienic supplies, disinfecting wipes or spray, hand sanitizer, and soap and water consistent with the number of persons allowed on the premises
 - Provide protective barriers from employees exposed to the general public
 - Barriers include a shield
 - Face mask or face shield
 - Limit customers to 2 individuals per 1,000 square feet of customer floor space
 - Businesses less than 1,000 square feet of customer floor space shall not permit that space to be occupied by more than 5 people
 - For businesses whose sales are 80% grocery, not more than 3 individuals per 1,000 square feet of floor space at any given time
 - Each business shall track the number of people per square foot who enter and leave the premises. Control should occur on a one in/one out basis
 - All businesses shall take actions to establish appropriate social distance of 6’, including but not limited to, marking areas a minimum of 6’ where people may stand or wait in line, creating one-way isles, provide signage outlining the distancing guidelines and any other restrictions which limit close contact of people

- To as much extent as possible, businesses shall encourage its customers to place their order ahead to allow customers to pick up and pay without entering the business
 - Any business open to the public shall prominently display the directives required by this section in a conspicuous manner at each public point of entry to the business
 - All workers are encouraged to wear a face covering over the nose and mouth while in spaces with customers and other workers (considered a barrier)
 - All customers are encouraged and/or provided a mask or face covering that covers their nose and mouth

- Healthcare – clinical and elective medical care
 - The assessment and sourcing of appropriate Personal Protective Equipment to include
 - N-95 masks
 - Surgical Masks
 - Gloves
 - Gowns
 - Face shields
 - Booties
 - PAPR
 - Tyvek Coveralls
 - Hand Sanitizer
 - Hand Soap
 - Assessment and inventory of:
 - Capacity
 - Ventilators
 - Isolation rooms
 - Surge capacity of hospital or clinical personnel

- Daycare Facilities – essential and permitted
 - Assess the operations of day care facilities
 - Capacity of day care facilities
 - Each Daycare shall develop a site-specific infection control plan
 - Obtaining temperatures or symptoms of staff and children
 - If symptomatic, exclude immediately

- Non-Essential Business Opening
 - Does the business have policies, procedures and supplies
 - Can these be sustained and appropriately adjusted?
 - How can the business follow the guidelines established?
 - Flow of people in and out
 - Maintaining parameters established by the State or Cabell-Huntington Health Department
 - 2 per 1000 square feet
 - 5 total people if under 1000 square feet

- Each business should develop a site-specific plan to ensure compliance with the regulations in place at the time the business prepares for operations
 - Sectors include but not limited to
 - Beauty Salons
 - Nail Salons
 - Barber Shops
 - Restaurants
 - Tattoo Parlors
 - Non-essential retail
 - Bars
 - Churches and Religious institutions
 - Entertainment facilities

 - Must be able to source and have available personal protective supplies
 - Strongly encouraged to wear a mask or face covering in public
 - Limit participation in groups larger than guidelines allow
 - Limit to as much extent as possible the time spent in public places
 - Call ahead for items if possible
 - Limit non-elective medical care to as much extent as possible
 - Limit going out in public to small numbers such as 1-3 when going to a place of business
 - Follow hand washing guidelines
 - Social distancing at all opportunities – 6'
 - Avoid touch eyes, nose and mouth
 - Recognize symptoms and avoid those with symptoms
 - Clean all surfaces of your home, car or things that you touch at recommended intervals

The Cabell-Huntington Health Department recognizes the need to adapt to a transitional model in the mitigation of the spread of COVID-19. The health department along with community partners continue to improve, promote and protect the health and well-being of our community by providing education and guidance to ensure the safety of our residents.
